Institute of Pulmocare and Research, Kolkata

Venue: CII Suresh Neotia, Salt Lake, Kolkata

DC 36, Sector- 1, Salt Lake City (Behind City Centre), Kolkata- 64

PULMOCON-2022

20th All India Update in Pulmonary Medicine
24th and 25th of September 2022

Theme: Case based approach to pulmonary medicine

Dear Colleague,

Greetings from Kolkata. Hope you are doing hale and hearty.

Pulmocon '22 is at the corner. We have planned it differently this year. I hope that you will appreciate this plan.

On each major area of pulmonary and critical care medicine, a case or two will be presented within a stipulated time. The summary of the case/cases will be sent to the registered delegates beforehand. Based on the case an expert panel will discuss some key questions. The audience will also be given scope to ask their doubts. Each session will be roughly of 45 minutes to one hour for enough of interactions. We feel that this novel format will make the conference more attractive to all concerned.

Apart, we have a quiz, workshops on "Preparing for final/ PGT exam (facing oral/practical)" and "IOS & FOT (Implse Oscilbmtery System & Forced Oscillation Technique)" and other attractions.

We feel glad to welcome you, your students and colleagues. Please pass the message to all of them.

With sincere regards,

Dr. Dhiman Ganguly
Organising President

Dr. Parthasarathi Bhattacharyya
Organising Secretary

The Story of PULMOCON

Pulmocon - 2022 is the 20th Pulmocon in a row. This annual national level pulmonary update started in the year 2003 and has been gaining appreciations over the years. So far, it has been graced by many famous national and international faculty members. Pulmocon has been receiving CME Credit points from the 2012 onwards. We hope that Pulmocon 2022 will also match the previous Pulmocons.

About the Institute

The Institute of Pulmocare & Research was born in 2000 AD with a motto of Research, Education and Patient care. With increasing urbanization, pollution, and other factors, the respiratory problems are on a rise. The institute is devoted to address them in an organised fashion, with research activities to the best of its capacity.

As a Scientific and Industrial Research Organisation (SIRO), the institute has already marked its presence with several research and development activities. We are also deeply engaged in patient care, education and benevolence alongside.

We expect your support to nurture our dream child and earnestly solicit your best wishes with positive criticisms.
