

Spirometry workshop: 10 am to 02 pm; 11.02.24

Institute of Pulmocare and Research, New Town, Kolkata.

		Speaker	duration
	Routine spirometry		
1.	History and development of spirometry with understanding the terminology	Dr Avishek Kar	20 mins
2.	Understanding the Curves and loops with acceptability and reproducibility	Dr Susmita RoyChowdhury	20 mins
3.	Diagnostic algorithm with lessons from real world	Dr Arindam Mukherjee	20 mins
	Doubt clearance on tea		30 mins
	Advanced spirometry with newer indications		
5.	Flow volume loop: extended use and Early detection of airway obstruction	Dr Supriyo Sarkar	20 mins
6.	Spirometry in other indications a) restrictive lung disease b) preoperative assessment	Dr Subhasish Ghosh	20 mins
7.	Unclassifiable airway disease – way forward	Dr. Parthasarathi Bhattacharyya	20 mins
	Panel discussion: Questions and Controversies related to spirometry	Moderator: Dr. Parthasarathi Bhattacharyya Participants: All faculty	30 minutes
	HANDS on TRAINING	-	One hour
	Working lunch		

- Registration is free.
- Registration mandatory.
